

WINTER PLAYING CONDITIONS

During the months, October to April, green fees are reduced to reflect the time of year and course conditions. During this period 9 of the 27 holes may be closed to allow for course maintenance and rest, however, the remaining 18 holes will be available for play. The Club therefore reserves the right to alter the course layout as necessary during this period.

Winter restrictions may include temporary greens, forward tees and lifting from fairways. If in any doubt, you are advised to check with the club prior to travelling.

Should you require catering, either before or after play, we would ask that you advise us at least 7 days prior, if possible as catering hours are reduced during the above period.

We endeavour to ensure that you and your party have an enjoyable and successful day and, if there is anything you feel we might be able to do to help, please do not hesitate to let us know.

Similarly, if you require any assistance in advance of your visit or wish to purchase prizes from the Professional's Shop, please contact Gregor Howie our Professional, on 01292 311322.

The Club reserves the right to suspend the use of buggies if ground conditions are unsuitable.
