

## **Loch Venachar Woodland Walk**

**Distance 7km / 4.5 miles**

**Starting point Invertrossachs Car park**

From Callander follow the Invertrossachs road until you pass a small white cottage on your right hand side. Just beyond this to the left is a small car park with an information board.

Follow the forest track from the car park as it winds gradually uphill through. As you progress you will see sections of the woodland have been cleared giving excellent views across Loch Venachar and beyond.

When you reach a fork in the path keep right and walk past a pretty little lochan. The track climbs a little before swinging right

Follow the path through a rocky pass with a little quarry to the right.

When the road forks take the right hand fork again and admire views across Loch Venachar

The path winds slowly downhill until it meets up with Cycle route 7. Turn right on to the private tarmac road and follow the path alongside the loch.

This lochside path has great views across to Ben Ledi. Part way along there is a small bench overlooking the loch to stop and enjoy the views!

Continue on this path past the scout centre and the sailing club until you reach your original starting point.
